

Point system equal scores

Setup:

It is recommended to disable the “show external screen” option in setup while using the point system. When this is disabled the podium will not automatic be projected on the external screen, but can be adjusted before showing it to the contenders.

The screenshot shows a software window titled "Setup" with four tabs: "Data", "Scoreboard", "Podium", and "General". The "Podium" tab is selected. Inside the "Podium" tab, there are three sections:

- Use autopodium:** A checked checkbox "Use autopodium". Below it, an unchecked checkbox "Show external podium screen" is highlighted with a red rectangular box. Below that is another unchecked checkbox "Show podium place 4".
- Medalstanding:** Two radio buttons: "Sort Points" (unselected) and "Sort Medals" (selected). Below these are four rows of medal assignments:

First place	—	1	points
Second place	—	2	points
Third place	—	3	points
Fourth place	—	0	points
- Contenders not visible on podium:** Three checkboxes: "Contender resigns (KK)" (checked), "Contender disqualified (DQ)" (checked), and "Contender not available (NA)" (unchecked).

At the bottom right of the window are two buttons: "Save" (green) and "Close" (grey).

When the first round has finished, you are able to select or deselect the checkboxes from the contenders you want to move to the next round. In case of two equal scores, you can take both contenders to the next round, or leave both behind.

Podium:

In case there are equal scores for the podium places, the software will sort the scores first at total corrected and then on the total scores uncorrected.

In case these are also the same, you shall have to decide who wins from these contenders.

Not every organisation does this the same way.

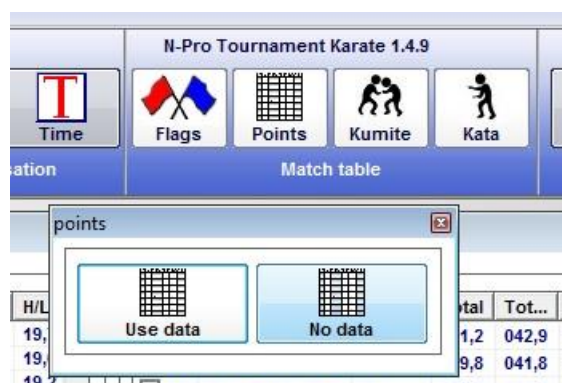

- You can let the head referee decide who is the better of the two.
- You can run an extra match with points.
- You can run an extra match with flags.

In all cases it is not possible to change the scores in the match data as already available.

You can however use the manual boards for points or flags to decide the best of the two competitors.

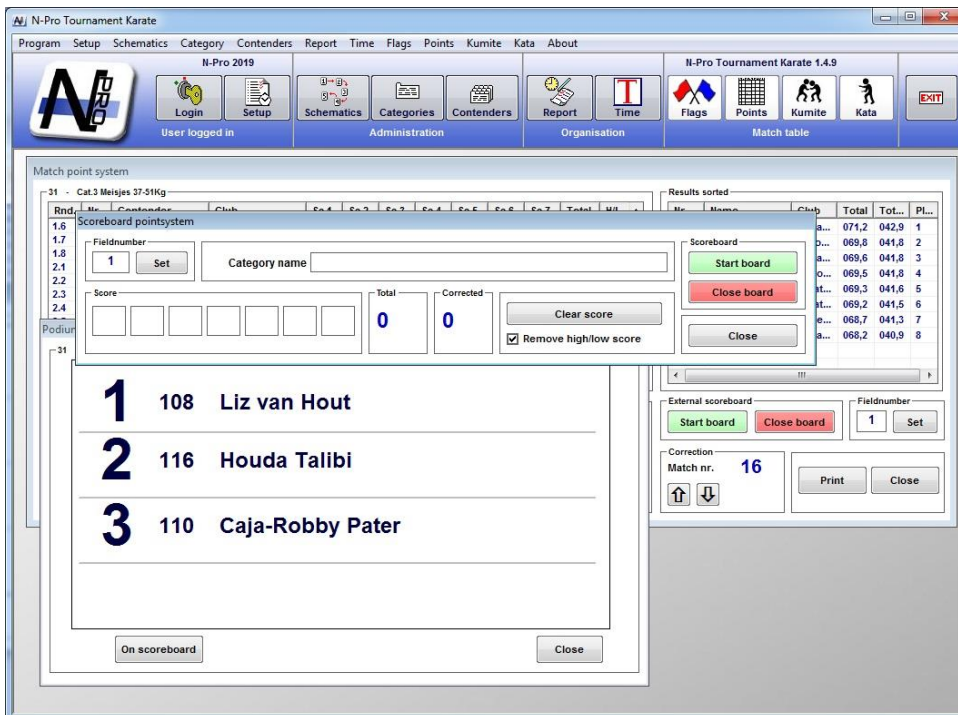

You do not have to exit the point system screen for using this.

Just select these scoreboards in the top menu. (points->No data or Kata)

- Extra match with points:

Start the manual point scoreboard and run two matches to decide the winner.

- Extra match with Flags

Start one extra match with the kata flag system to decide the winner

Correcting the podium:

After the podium is known and it has changed, you are able to correct it.

The screenshot shows the 'Match point system' interface for category 31, Cat.3 Meisjes 37-51Kg. The main table lists rounds 1.6 to 2.8 with scores for seven contenders. A context menu is open over the 'Results sorted' table, showing options to set podium places for contenders 108, 110, 116, 33, 8, 2, 141, and 102. The 'Re-order' option is highlighted.

Click on the contender you want to change. Click right mouse button and select the podium place you want the contender to be on.

Do this for both contenders.

After changing it, click the re-order option in this menu.

The podium will be altered then. See below the podium before and after changing it.
